

# Danger! Solar Storm Classroom Edition

## Solar Flares, Sunspots, and Auroras!

What would you do if all mobile phone and beeper networks suddenly went down? No electricity due to fires at power companies? It's science fact, not fiction. This exciting DVD from the creators of Starry Night® software shows how solar storms can incapacitate our daily lives. Go deep inside NOAA's Space Environment Center- the first place on Earth to feel the Sun's wrath- for interviews with solar experts.

This 2005 Telly Award Finalist for Multimedia Video comes complete with a teaching guide full of discussion questions, cross-curricular activities and correlations to national science standards. It is a wonderful educational resource that will inspire and excite your students about space science.

Run Time: 55 minutes.

### Features:

- Bonus Image Galleries
- Chapters Index
- Widescreen Format
